**B** Business

**C** Contacts

## June 2021

**Mark Alden, Enterprise Development Strategic Lead at the South Downs National Park Authority (SDNPA), welcomes the creation of the Amberley Business Contacts and introduces an exciting new enterprise network for the National Park.**

*“We’re really delighted to support this fantastic initiative from Amberley Parish Council. The economic fallout from the Covid-19 pandemic has led to unprecedented challenges for businesses. However, one of the positives from the past year has been the rise in support for local businesses and a renewed interest in local products and services.*

*We hope inspiring initiatives such as this will ensure this trend continues into the future and our local businesses continue to be supported and recognised for the vital role they play in our local economy and communities’ well-being.”*

The Authority works in collaboration with a wide range of partners to deliver its statutory purposes and duty, which includes seeking to foster the social and economic wellbeing of local communities in the National Park. This is laid down in the Authority’s Partnership Management Plan 2020-2025, which outlines priorities of creating great places to both live and work.

With the benefit of evidence gathered from recent business surveys, the SDNPA has been able to apply a targeted and methodical approach to its business engagement. The evidence has led to the creation of a new business community and network with some key goals:

- strengthen the rural economy
- improve collaboration between National Park businesses
- promote stronger and shorter rural supply chains, promoting a ‘think and act locally’ approach
- promote social responsibility and environmental sustainability
- facilitate the positive contribution of National Park businesses to meeting the challenge of climate change and to complement and add value to existing business support offered by our partners.

If you are a business in or around the South Downs National Park and would like to find out more about our current and future business initiatives please sign up to our monthly business newsletter by emailing [enterprise@southdowns.gov.uk](mailto:enterprise@southdowns.gov.uk)

For more general updates about the work of the Authority and things happening in the National Park, sign up to the monthly South Downs News at: [www.southdowns.gov.uk/join-the-newsletter/](http://www.southdowns.gov.uk/join-the-newsletter/)

# Amberley to Bury Ferry

## Bob Dudden Ferryman 1931

The villages of Bury and Amberley were linked, since Charles II's reign by a ferry, operated by the occupants of a cottage on the side of the River Arun. The footpath beneath Amberley Castle still runs across the railway line to the ferry site.

The ferry ceased operating in 1965.
